

Most accurate. Most widely used. Most robust.

The **most complete** parts marketing and sourcing solution in the industry.

The single-source for complete parts locating, buying, selling, marketing and more. Used by thousands of dealers, millions of times per month and updated every day with the most accurate data in the industry. The most comprehensive solution for running a better parts business.

### Easy and intuitive.

All the information for parts buying, selling and management is integrated and quickly accessible from one screen. Workflow is streamlined and parts decisions can be made quickly.

### Fast & accurate.

Unmatched search speed, reduced phone time, automatic daily inventory updates and 99% part search accuracy make it the efficient, confident choice.

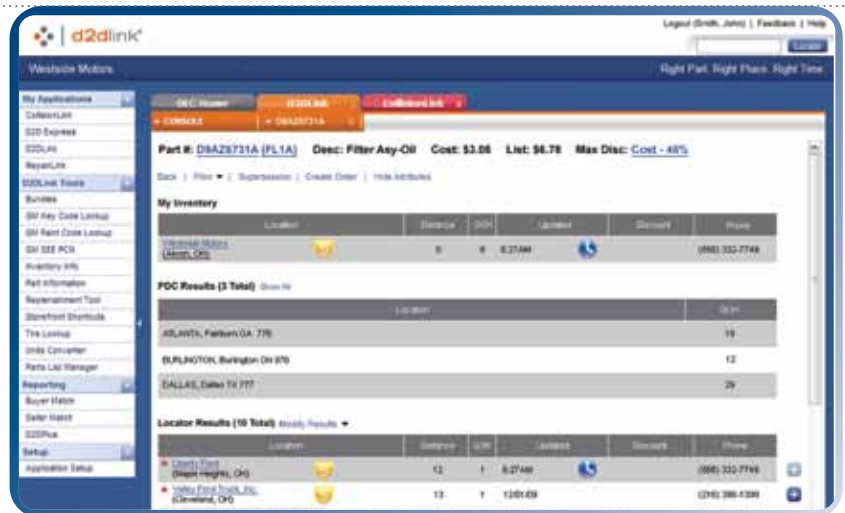

### A 47 million parts warehouse.

Manufacturer, dealer, authorized distributor, tire, paint — all the parts and parts information in one place.

### Ecommerce enabled.

Easy, quick ecommerce function enhances parts buying and selling speed.

### Everything you need to manage your inventory, at your fingertips.

Locate Console highlights:

- D2D Express transaction notifications
- Parts buying and selling opportunities
- Inventory update information
- Tire lookup data
- Discounted part rules criteria
- Replenishment overview

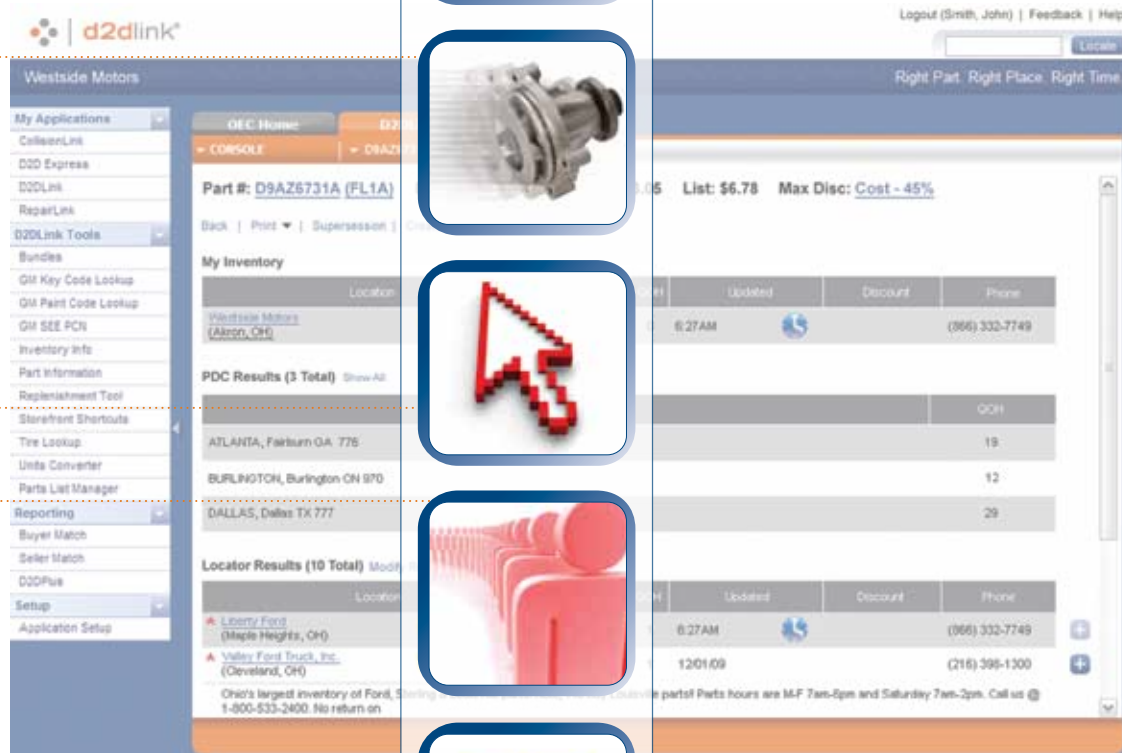

# A complete parts marketing solution from inventory management to idle reduction.

**Manage inventory** faster and easier than ever before via bundling, idle parts selling, idle parts shopping and more, right at your fingertips.

**One click** provides visibility to your old, idle, obsolete and excess inventory and the tools that market and sell that inventory.

**Automatically sell idle parts** by identifying other dealers who have a history of buying those parts. **Automatically shop for discounted parts** by receiving alerts when another dealer has discounted a part you sell often so you can buy more competitively.

**Integrated reporting functions** provide quick, easy access to information to make smart pricing and stocking decisions.

**Storefront** feature allows you to create a customized website to showcase your dealership's specials, offers and deals, and market your parts department nationwide.

**Target every buyer** automatically through our DiscountPartsHUB that markets your idle and excess inventory to other franchises, independent repair shops, fleets, collision shops and even consumers.
